Letter of Appeal Marlene H. Dortch Federal Communications Commission Office of the Secretary 445 12th Street, SW Washington, DC 20554

APR 1 2 2010 FCC Mail Room

Applicant Name: Forest Grove School District

Billed Entity Number: 201298

Form 471 Application Number: 615656 Funding Request Number: 1697933

Responding to Denial dated March 3, 2010

CC: 02-6

April 6, 2010

Dear Ms Dortch,

Burris Communications Inc. of Ada, Oklahoma spin # 143020614, provided network maintenance to the Forest Grove School District in Oklahoma funding year 2008. The application was approved, the work was performed and the school has paid their share. When Burris billed ERATE for the balance, the maintenance was denied based on a cost per drop item. The network maintenance included all cat5e wiring, all patch panels, fiber connections between the main building which houses the library, 4 class rooms and the administration offices, the middle school which has 3 class rooms and the gym, and the elementary which has 2 classrooms. In addition, the network maintenance infrastructure includes 3 Cisco switches, 2-2950-24 with fiber modules and 1 2950-48 with fiber modules. Also there are 4 D-Link AP 2200 wireless access points that serve the wireless computer lab Forest Grove School has. Included in the work order copies that are enclosed are references to work done on the wireless access points, the switches and the wiring.

If you would please review the maintenance records included you will see that the work was done on all the cabling and the network infrastructure which includes the switches, the wireless access points and the fiber connecting the 3 buildings all located adjacent to each other. Burris Communications respectfully asks you to reverse the decision made by USAC and approve the work that has already been completed.

Thanks in advance for your consideration.

Burris Communications, phone 580-332-0033

attachments

Sincerely,

Letter of Appeal Schools and Libraries Division-Correspondence Unit 30 Lanidex Plaza West PO Box 685 Parsippany, NJ 07054-0685

Subject: Letter of Appeal of Forest Grove School FRN 1697933, Billed Entity Number 201298.

**Burris Communications** 

116 W Main

Ada, OK 74820

Contact: Danny Williams

Phone number: 580-332-3099

E-mail: <u>danj@wilnet1.com</u> 471 Number: 615656

Funding Year: July 1, 2008- June 30, 2009

Billed Entity Number: 201298

SPIN: 143020615

FRN: 1697933

To Whom It May Concern:

Burris Communications, SPIN 143020615 is appealing the disallowed maintenance on **FRN 1697933** for Forest Grove School in Oklahoma, Bill Entity Number 201298 for year July 1, 2008 through June 30, 2009.

Burris Communications has provided maintenance on all networks, network devices and equipment, phone system and cabling for two years. In funding year July 1, 2008 thru June 30, 2009, Burris technicians and staff made twelve round trips of three hours one way to the school to support their equipment. During those trips Burris technicians updated server software, fixed DNS and DHCP functions, rebooted servers, managed firewall functions, updated phone system applications, rebooted phone system, corrected errors and fixed cabling malfunctions. Enclosed are work Customer Service documents that support our work.

Forest Grove School has paid their share of the costs and now we respectively ask you to reverse your previous decision. Burris Communications has met all the terms of their commitment to the school and now Burris asks USAC to please approve and pay the balance due. Burris has experienced significant costs during this period and believes it is only fair to be compensated for the work done between July 1, 2008 and June 30, 2009. Thank you in advance for your consideration.

Sincerely,

Danny Willams,

President-Burris Communications

#### Administrator's Decision on Appeal – Funding Year 2008-2009

March 03, 2010

Danny Williams Burris Communications 116 W. Main Ada, OK 74820

Re: Applicant Name: FOREST GROVE SCHOOL DISTRICT

Billed Entity Number: 201298 Form 471 Application Number: 615656 Funding Request Number(s): 1697933

Your Correspondence Dated: January 22, 2010

After thorough review and investigation of all relevant facts, the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (USAC) has made its decision in regard to your appeal of USAC's Funding Year 2008 Funding Commitment Decision Letter for the Application Number indicated above. This letter explains the basis of USAC's decision. The date of this letter begins the 60 day time period for appealing this decision to the Federal Communications Commission (FCC). If your Letter of Appeal included more than one Application Number, please note that you will receive a separate letter for each application.

Funding Request Number(s): 1697933
Decision on Appeal: Denied

Explanation:

• During Initial Review, the applicant was asked to provide detail justifying the cost effectiveness of the requested services. Based on the documentation submitted during Initial Review, USAC has determined that the cost of maintenance per drop (\$250.00), number of hours (6.23 hours) each month to maintain forty (40) cabling drops and that the cabling maintenance for \$10,000.00 makes up the majority of the request and is not cost effective. Your response to USAC during the appeal did not justify the cost of the above listed maintenance. Consequently, it has been determined that the applicant's funding request for Basic Maintenance of Internal Connections services has not been justified as being cost effective as required by the Schools and Libraries Support Mechanism's rules and procedures.

- USAC denied your funding request because it was determined that the costs of the
  products and services in your funding request were significantly higher than the
  costs generally available in your marketplace for the same or similar products or
  services. There is no evidence that the reason for excessive costs were due to
  extenuating circumstances. You have not demonstrated on appeal that USAC's
  determination was incorrect. Consequently, USAC denies your appeal.
- FCC rules state that, in selecting a service provider, the applicant must carefully consider all bids submitted and must select the most cost-effective service or equipment offering, with price being the primary factor, which will result in being the most cost-effective means of meeting educational needs and the technology plan goals. See 47 C.F.R. secs. 54.511(a), 54.504(b)(2)(vii), 54.504(c)(1)(xi). See also Request for Review of the Decision of the Universal Service Administrator by Ysleta Independent School District, et al., CC Docket Nos. 96-45 and 97-21, Order, 18 FCC Rcd 26407, FCC 03-313, paras. 47-55 (Dec. 8, 2003) (Ysleta Order). Service providers shall not charge the entities a price above the lowest corresponding price. See 47 C.F.R. sec. 54.511(b). In order to ensure that the applicants are not requesting discounts for services beyond their reasonable needs, USAC denies funding request(s) for not being cost-effective the costs of the products and services in a funding request are significantly higher than the costs generally available in the applicant's marketplace for the same or similar products or services. For example, equipment at prices two or three times greater than the prices available from commercial vendors would not be cost effective, unless there were extenuating circumstances. See Ysleta Order para. 54.

If your appeal has been approved, but funding has been reduced or denied, you may appeal these decisions to either USAC or the FCC. For appeals that have been denied in full, partially approved, dismissed, or canceled, you may file an appeal with the FCC. You should refer to CC Docket No. 02-6 on the first page of your appeal to the FCC. Your appeal must be received or postmarked within 60 days of the date on this letter. Failure to meet this requirement will result in automatic dismissal of your appeal. If you are submitting your appeal via United States Postal Service, send to: FCC, Office of the Secretary, 445 12th Street SW, Washington, DC 20554. Further information and options for filing an appeal directly with the FCC can be found in the "Appeals Procedure" posted in the Reference Area of the SLD section of the USAC website or by contacting the Client Service Bureau. We strongly recommend that you use the electronic filing options.

We thank you for your continued support, patience and cooperation during the appeal process.
